

# Scheduled Monuments Within the SERT Survey Areas

Compiled by Jonathan Lim

## Table of Contents

## **Part 1: Background Information**

### **Scope of Report**

- This report details the archaeological features present within the survey areas identified by the SERT.
- It has been compiled using the GIS data of all the Scheduled Monuments listed by Historic England (2017), as well as survey areas digitised by the SERT.

### **Statistics**

- Of the 35 identified survey areas, only 15 contain Scheduled Monuments as defined by Historic England (2017).
- There are a total of 50 Scheduled Monuments within the survey areas. They have each been assigned an ID number for the purpose of this survey (See Appendix 1).

1)Tadpole and 2) Winfrith
